TopQuadrant Named as Approved Vendor on GSA Schedule 70

U.S. Government Agencies Granted Direct Access to Leading Semantic Web Application Development Products, Training and Services

ALEXANDRIA, Va. and MOUNTAIN VIEW, Calif. – June 2, 2009 - TopQuadrant™, the global leader in Semantic Web application development technology, today announced it was awarded General Services Administration (GSA) MAS Contract # GS-35F-0382V, which enables TopQuadrant to do business directly with the Federal Government. The GSA [Information Technology \(IT\) Schedule 70](#) provides U.S. government agencies with direct access to commercial products and services through qualified vendors who can thoroughly address the needs of the government IT community. Through TopQuadrant's GSA Schedule, the GSA will now assist local, state and federal government agencies in procuring TopQuadrant's leading TopBraid™ Suite of Semantic Web products, training programs and solution services.

"We are pleased to be placed on the GSA Schedule," said Irene Polikoff, CEO and co-founder of TopQuadrant. "Many government agencies including [NASA](#), U.S. Army, U.S. Navy, U.S. Air Force, JWAC, Library of Congress, FBI, CIA, GSA, and FAA have purchased our TopBraid™ products, used our professional consulting services or participated in our training programs. Over the past four years, NASA and the GSA have utilized extensive TopQuadrant professional services for implementing Semantic Web models and applications. We're confident that ability to procure TopQuadrant's products and services through the GSA Schedule will be more convenient and very attractive to our government customers."

Under the GSA Schedules (also referred to as Multiple Award Schedules and Federal Supply Schedules) Program, GSA establishes long-term government-wide contracts with commercial firms to provide access to commercial supplies (products) and services that can be ordered directly from GSA Schedule contractors or through GSA Advantage, the GSA online shopping and ordering system. GSA Schedules offer customers direct delivery of millions of state-of-the-art, high-quality commercial supplies and services at volume discount pricing.

TopQuadrant's products, training programs and solution services are now available through four Special Item Numbers (SINs).

- 132-33 Perpetual Software Licenses
- 132-34 Maintenance of Software
- 132-50 Classroom Training
- 132-51 Information Technology (IT) Professional Services

Government customers can access information about [TopQuadrant](#) through the [GSA Schedules e-Library](#) by searching by the contract number (FSS) GS-35F-0382V. They can also place orders on-line through GSA Advantage (<http://www.gsaadvantage.gov/>).

About TopBraid Suite

TopBraid Suite™ supports the complete semantic application development lifecycle. Users can rapidly assemble, deploy and manage dynamic ontology-driven applications built with the W3C SemanticWeb standards, including RDF/S, OWL and SPARQL. The suite includes TopBraid Composer, a Semantic Web modeling and application development environment; TopBraid Composer Maestro Edition™, an extended version of Composer with additional capabilities such as SPARQLMotion for editing and executing visual data processing scripts; TopBraid Live™, an enterprise Semantic Web application platform; and TopBraid Ensemble™, a Semantic Web application assembly toolkit.

About TopQuadrant

TopQuadrant is the global leader in Semantic Web application development technology, solution services and training programs. Established in 2001 with the mission to enable enterprises to be agile through practical application of Semantic Web technologies, TopQuadrant offers TopBraid Suite, the only Semantic Web platform with a graphical application assembly toolkit and end-user customizable tools to discover, explore and visualize relevant data without programming. TopQuadrant's Semantic Web applications enable enterprises to master the challenges of the global marketplace by becoming more agile, reducing costs and creating competitive business processes that easily adapt to change. The company's customers include Fortune 1000 corporations in retail, pharmaceutical, financial services, medical/healthcare, manufacturing, and energy industries as well as government agencies in the areas of defense, intelligence and airspace.
