ReportLinker Selects TopQuadrant as its Data Integration Partner

*TopBraid Enterprise Vocabulary Net (EVN) to provide enhanced economic research content to professional and academic researchers*

RALEIGH, NC – July 28, 2014 - TopQuadrant™, a leading semantic data integration company, today announced that it has added ReportLinker to its growing roster of clients. Organizations such as ReportLinker continue to leverage TopQuadrant’s cutting-edge technology to collaborate on defining and linking enterprise vocabularies, taxonomies and metadata used for information sharing, data integration and search.

ReportLinker is a leading search engine, offering access to the largest online collection of industry reports, company profiles and market statistics released by private publishers and public organizations. On a single search page interface, ReportLinker provides full access to more than 1.2 million reports with data on 450 industries and 3,000 sub-industries around the world, published by 200,000 reliable public sources. TopBraid EVN will equip ReportLinker with the ability to create, connect and use vocabularies, ontologies and content tag sets.

“In today’s world, where online resources play a critical role in Economic Research, it is essential to provide business analysts and researchers with efficient search and discovery tools,” said Ben Carpano, CEO at ReportLinker. “With the integration of TopBraid EVN, ReportLinker users find relevant economic data and statistics faster than ever, helping them save time and make better business decisions.”

“We are pleased to be working with one of the largest public reports search engine in the world,” said Irene Polikoff, CEO and co-founder of TopQuadrant. “The flexibility of TopBraid EVN allows organizations such as ReportLinker to work intelligently to create relationships between internal vocabularies and content assets and to meet the needs for the delivery of smart digital content.”
